

DHM® R100 and R200: robust, compact, lightweight, and extremely fast

Tailored for industrial applications !

The new industrial DHM® series R100 and R200 have been developed specifically for **on-line quality control** applications, and for **integration on robot arms and gantry conveyors**.

On-flight 3D measurement

The unique non-scanning acquisition DHM® technology provides 3D topography **INSTANTANEOUSLY** with an interferometric resolution. It is so fast that measurements can be acquired on-flight, and in the presence of environmental vibrations.
